Killing many birds with one stone: Virtual institutional databases in AtoM

Tim Hutchinson

ACA Montreal, 4 June 2016

UNIVERSITY OF
SASKATCHEWAN

University Library

library.usask.ca

Background

- SAIN: Saskatchewan Archival Information Network. Launched ca. 2000, hosted by U of S
- Doubled as U of S archival database
- Migrated to ICA-AtoM in 2011
 - a) Some local customizations including filtering by institution (“virtual institutional database”)
 - b) Contributed “visible elements” module

Background cont'd

- AtoM 2.0 release in October 2013
- Goal: upgrade remaining customizations to AtoM 2.x, contribute to main project
- So far:
 - a) Enhancement to repository browse (new access points)
 - b) RAD and ISAD area headings added to Visible Elements
 - c) Tweak to global search/browse
- Final piece: virtual institutional databases

Virtual institutional databases – ICA-AtoM 1.3

Welcome to SAIN Collections

The Saskatchewan Archival Information Network (SAIN) is a database of descriptions of archival material held in Saskatchewan archives. It is a work in progress, with new descriptions being added regularly. For further information about the material described in this database, contact the responsible archives.

SAIN is comprised of two separate databases. The current database is primarily fonds- and series-level descriptions. See also the [photograph database](#).

You can also browse our [directory](#) of archives in Saskatchewan, incorporated into the descriptive databases.

Welcome to SAIN Collections

The Saskatchewan Archival Information Network (SAIN) is a database of descriptions of archival material held in Saskatchewan archives. It is a work in progress, with new descriptions being added regularly. For further information about the material described in this database, contact the responsible archives.

SAIN is comprised of two separate databases. The current database is primarily fonds- and series-level descriptions. See also the [photograph database](#).

You can also browse our [directory](#) of archives in Saskatchewan, incorporated into the descriptive databases.

Administrative history >>

University of Saskatchewan. Extension Division. 4H Clubs

Administrative history:
4-H clubs had two predecessors--agricultural clubs, more commonly known as the Boy's and Girl's Clubs, which were supervised by the Agricultural Extension Department, and the girl's clubs or Homecraft Clubs. In 1952, both types became 4-H Clubs, but they ... »

Content >>

This fonds contains correspondence, minutes, reports, financial records relating to the administration of 4-H Clubs. Included are minutes of the Annual Meeting of Council (1957-1967) and the minutes of the Board of Directors (1962-1967).

The final hurdle

Source: AtoM docs – entity types

Local vs. contract development

Advantages	Challenges
Can be easier to secure staff time than funding (open source)	Competing priorities of local developers
High quality of local support – detailed knowledge of application	Significant learning curve for developers new to AtoM/Symfony
Code contributions become part of official release	AtoM under very active development
